ADVANCED FACIAL TREATMENTS

COLLAGEN INDUCTION THERAPY \$249

A minimally-invasive, non-surgical procedure for facial rejuvenation that involves the use of a micro-needling device. Treatments are designed to ignite natural collagen and elastin production without harsh side effects and downtime. This treatment creates a safe healing response within the skin repairing the surface layers to reveal healthier, brighter, tighter and more even toned skin with refined pores and reduced wrinkles. Also includes face, neck, décolletage & scalp lift.

IMAGE SKIN PEELS

Our signature chemical peels help to reverse the visible effects of damage in two ways. First, they power away dull, dead cells to illuminate the skin and reduce the appearance of fine lines, wrinkles, age spots, clogged pores and blemishes. Then, they support collagen for firmer-looking skin over time. Ask your beauty therapist which IMAGE chemical peel will best target your skin's individual needs. (If it's too much, cut down whatever you think).
